Registration Renewal: Isthimara

All Qatar registered vehicles are required to renew the Vehicle Registration annually. Vehicles, three years old and over, require a valid Qatar Technical Inspection, QTI certificate by law. The QTI is a standardized annual test, set by the Traffic Department of Qatar, to make sure your vehicle meets all the legal requirements for safe road use.

How to Renew your Registration (Isthimara):

- *For Vehicles less than three years OLD, registrations can be directly renewed at any Traffic department provided the vehicle insurance is renewed. You have to pay a fee of QR 100/- (by card only) at the counter in order to obtain the new registration card.*
- *For Vehicles over three years, then you must have first had your annual QTI test and are required to have the report with you to show that you have passed. Once the QTI is passed, you can renew your insurance and then submit your registration at any branch of Traffic Department after paying the QR100/- fee by card.*
- *Please Note: Take two copies of the renewed insurance as one copy will be kept by the traffic Department.*
- *Please Note: If you have any outstanding fines to pay for traffic violations, these will be added to the bill before renewal.*

For any Assistance regarding QTI (Isthimara) Renewals for your vehicle, contact:+974 40374876 or mail us at info@topnotchgarage.qa
